Simply Elegant

A thin, compact design. A shape that just feels right. Simple to learn, simple to use functions. Style in simplicity.

**Easy to See**
1.8-inch white backlight LCD

Noise Reduction
Reduces background noise of the other party

Key Finder Compatible
The handset can detect lost items with the attached Key Finder

Thin and Compact Base Unit
An efficient size that you can place almost anywhere

Noise Reduction

Reduce the background noise of the other party

When the area around the other party is noisy and it is difficult to hear, you can reduce the surrounding noise to make the speaker's voice easier to hear just by pressing the dedicated button.

Smart Function Key

Easy access to necessary functions

The Smart Function Key flashes according to the situation. By pressing this key while it is flashing, you can play an answering machine message or respond to a call.

With the NR key, easily:
· Listen to new messages <slow flash>
· View the caller list when there are missed calls <slow flash>
· Answer the incoming call on speakerphone <fast flash>
· Stop the alarm sound (then switches it to snooze mode) <fast flash>
· Stop paging
· Enable Noise Reduction during a call

Incoming Call Barring

Stop unwanted junk calls

You can block annoying calls from unwanted numbers. Numbers on your call block list will be blocked (the unit emits no sound to the caller, and disconnects the call) if they call you.

* Requires subscription to the Caller ID service offered by your telephone company.

Key Finder Compatible

The handset detects lost items

Simply attach the Key Finder to items that you often misplace, and use the KX-TG681x series handset to find them quickly and easily. You can see how close you are to your lost item on the LCD screen, and both the handset and Key Finder beep when being searched for, making them easy to find.

*The optional Key Finder KX-TGA20 is required.

Lineup

Bundle Models

KX-TG6812
